AMAIN HOBBIES AND REDCAT ANNOUNCE EXCLUSIVE DISTRIBUTION AGREEMENT
AMain Hobbies to Serve as Sole Wholesale Distributor of Redcat products Throughout North America

AMain Hobbies is pleased to announce an exclusive North American distribution agreement with Redcat, a radio-controlled leader for the past 20 years with a vast array of some of the most popular vehicles in the RC industry. The agreement goes into effect immediately and ensures AMain Hobbies will continue to carry the full line of Redcat vehicles, parts, and accessories with full support of future releases.

Redcat is a United States based company out of Phoenix, Arizona with various vehicle platforms at a variety of scales, ranging from crawlers, bashers, drifters, and their very popular lowrider line.

“We are very excited to serve as the exclusive distributor for the Redcat product line,” states AMain Hobbies Strategic Growth Manager Shawn Ireland. “Redcat has long been an RC industry innovator and many of their vehicle platforms are popular with long-time RC enthusiasts. We strive to provide our AMain Hobbies Distribution Network with a full-service experience, supplying hobby shop dealers with the most popular vehicles, parts, and accessories at the best possible pricing with the highest level of customer service from a streamlined ordering process to speedy and efficient shipping and delivery.”

For more than 20 years Redcat has been an industry driver in bringing new enthusiasts to the radio control hobby. Some of their current most popular vehicles include the Redcat Ascent line (1/18 and 1/10 scale crawlers) as well as the iconic hopping lowriders such as the Chevrolet Impala and newly released Chevrolet Caprice Classic 1/10 RTR vehicles to name just a few.

“It is an honor to join forces with AMain Hobbies to provide exclusive distributorship of our Redcat product line. AMain Hobbies services its distribution network better than anyone in the industry with premium level customer service and a streamlined ordering and delivery execution process that is unmatched,” states Redcat CEO Darin Oreman. “As a United States based company, we are thrilled to have our full Redcat brand line distributed on both coasts through AMain Hobbies’ processing centers in California and North Carolina.”

Redcat will retain its ability to sell directly to dealers and consumers through the Redcat website, Amazon, and other online marketplaces. But AMain Hobbies will become the sole North American wholesale Redcat distributor.

AMain Hobbies continues to invest in its distribution business to better meet the needs of independent hobby shops and franchise Hobbytown stores, growing and servicing its distribution network with the widest assortment of hard-to-find brands for the ultimate one-stop ordering experience.
